

IBERIA PARISH

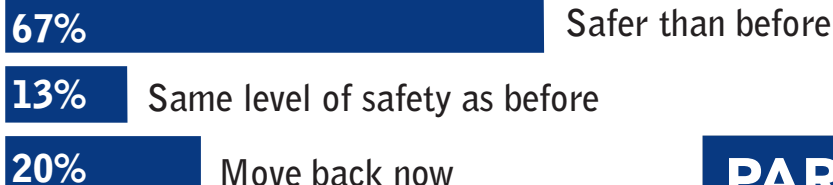

Iberia residents consider safety and storm protection measures to be their highest priorities, and are willing to change their parish planning in order to strengthen their region. They also are interested in rebuilding using zoning and land use planning.

Effects of Katrina and Rita

Iberia Parish experienced significant population growth after Katrina. More than 1,000 homes and a large number of businesses were damaged by Rita.

WHEN WILL WE RETURN?

WE TREASURE...

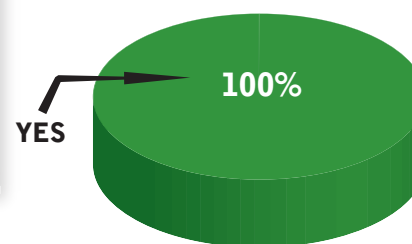

...our historic landmarks, architecture and cajun culture. We want to preserve our shrimping, sugarcane, rice and crawfish industries. We value our wetlands, wildlife and great hunting opportunities.

PARISH TOP PRIORITIES:

- #1 Restore coastal areas
- #2 Build better levees & other hurricane protection
- #3 Devise a workable evacuation plan
- #4 Attract new businesses to the area

Are you open to changing parish plans for a stronger region?

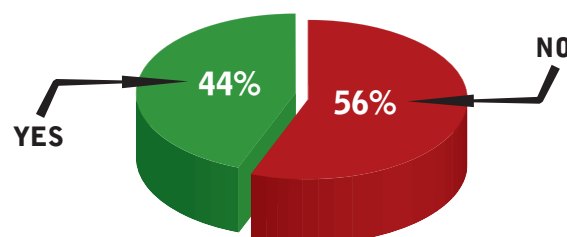

WE STRONGLY AGREE

- 96% Zoning and land use plans should be used to guide rebuilding
- 86% Public buildings that in high-risk areas should not be rebuilt.
- 80% We should rebuild in low-risk areas first

SPLIT DECISIONS

- 69% Some areas are too risky to rebuild
- 66% Flood protection should not be prioritized over other needs

Should we ensure that residents can return to their original home sites?

LOUISIANA SPEAKS

Our Voice. Our Plan. Our Future.

LOUISIANA LONG-TERM RECOVERY PLANNING
